

CISC 3320

Homework 3

Author: Alejandro Fernandez Hernandez

Roles: all

Assumptions about the problem statement:

1. I will use the csv file provided for this homework as an input of page requests
2. If it's the first time that the page appears it will trigger a page fault
3. If there are no free frames it will overwrite a frame and it will trigger a page fault
4. I will use two algorithms, FCFO and Optimal Page replacement
5. I will Flag each page request that generates a age fault
